Carbonated Beverages Supply Sugar Stimulation Body Needs, Dr. Murphy Declares.

DETROIT, July 9.—That the American public is drinking llions of bottles of carbonated beverages every day under a misapprehension was the declaration made by Dr. F. W. Murphy, of Detroit, international sugar expert, in an address before the Detroit Association of Carbonated

Beverage Manufacturers.
Dr. Murphy asserted the public drinks these beverages under the impression it is for the purpose of quenching the thirst, when, as it matter of fact, the real reason is for the timulation derived from the drink. "People become hot and thirsty and

drink, a bottle of some soft drink, thinking it is for the thirst." he said. but, this is not true in the main. When they become overheated they become fatigued. It is the call of the for stimulation which causes their action. "Soft drinks contain a certain

amount of sugar. This sugar, through the chemical action when placed in the drink, becomes what we call invert sugar, a highly yourishing food. Invert sugar needs no digestion. As soon as the drink reaches the stomach the sugar is carried immediately into the blood and there is an instantaneous feeling of exhilaraion caused by the food properties furnishing additional energy.

"Therein lies the value of soft

drinks. The sugar furnishes strength to the body and invert sugar is the purest concentrated food known. There is absolutely no waste, and it is absorbed immediately into the ood without the body laboring to

Dr. Murphy stated he had heard some persons refer to soft drinks 28 "non-essentials." This statement, he declared, shows ignorance of the subject. The stimulation from the food properties in carbonated beverages. performs a great work in restoring the energy of the body, which in this day and age of speed and high tension, is under a great physical

# PERSHING WILL ADDRESS FOREIGN VETERANS HERE

# SAYS DARTMOUTH BOYS BRING LIQUOR INTO U. S.

Father of Youth Held for Slaying of Fellow-Student Demands That College Head Resign. CHICAGO. July 9.—Declaring that liquor smuggling from Canada is ex-

tensive among the students at Dart mouth College, Afterney Albert H. Meads, of La Grange, Ill., father of Robert T. Meads, who shot and killed Henry E. Maroney, a fellow student, on June 20, today demanded the resignation of President Ernest 1. Hopkins, of the institution.

"Booze smuggling among Dartmouth students is a common occurrence." said Mr. Meads on his return to Chicago from Hanover, N. H., where he went to visit his son in jail. "The students go into Canada on motor trucks, purchase liquor at low prices, and, returning with it to Hanover,

ell it for from \$16 to \$20 a quart.
"Nearly everybody in Hanover has been aware of this traffic, and if President Hopkins knew of it he failed in his duty to protect the young men entrusted to his care. It was during a quarrel over money from this illicit booze that Robert shot Henry Maroney."

## **GLARING HEADLIGHTS CAUSE AUTO TO CRASH**

SALISBURY, Md., July 9 .- William Truitt, a lad of Pittsville, has lain unconscious at the Peninsula General Hospital, in this city, from Friday midnight until today as the result of injuries received near Pittsville. Truitt is suffering with a fractured skull, fractured legs and arms and

internal injuries. According to reports received here. Truitt was returning with a party from Ocean City. A car approaching is machine carried such bright lights that it blinded him and he was unable to keep the road. His car ran off the stone roadway to the soft earth at the side, and when he attempted to guide his machine back to the road his front wheels skidded, he lost control of the steering wheel and the machine turned turtle.
